SPONSORSHIP

GIVING STUDENTS A FUTURE TO BELIEVE IN.

Sponsor a
student today!

WHY SPONSORSHIP?

The goal of sponsorship is to create the conditions students need to succeed. When sponsoring a student, you not only fund their education but also motivate them to stay in school and to work hard. You will receive letters, photos, and other updates about their progress in school. We also provide the means for you to share letters and photos in return. We encourage a mentorship approach from sponsors to support students in their studies and keep them motivated.

We believe that education is the foundation on which stable societies are built.

Studies have proven the transformative power of education, including lower levels of HIV, increased life expectancy, decreased infant & maternal mortality rates, and greater income equality. By harnessing the power of education, nurturing the creativity of students, and supporting the local economy, we can foster economic growth in the right direction to help Tanzania develop into a key African nation, providing a more equitable future for all Tanzanians.

HOW TO SPONSOR

You can sponsor a student for a term for \$150, or a year for \$300. You can also sponsor multiple students, or even a whole grade! Our website has the [full list of students](#) attending our schools so you can select which student(s) you would like to sponsor.

If a year or a term doesn't seem long enough, you can renew your sponsorship commitment every year for as long as your student is enrolled at a Brighter Tanzania funded school. Should your student graduate or leave our school, you can choose to sponsor a new student.

FULL YEAR

January - December

TERM 1

January - June

TERM 2

July - December

TAKE A LOOK AT A FEW STUDENTS CURRENTLY SEEKING A SPONSOR

HANS BARAKA

Hans is a sweet boy who takes care of everyone.

ELIZA EZEKIEL

Eliza is always acting goofy and making faces.

MEET SHEDRACK

Shedrack was one of the first students to enroll at Saving Grace. When he started, he suffered from severe stunting, rickets, and knock knee due to malnutrition. He had trouble playing with the other children and performed poorly in school, impacting both his self esteem and mental health. Since being sponsored, Shedrack has completely turned around. He is strong and healthy due our nutrition program; both his improved nutrition and individual tutoring have put Shedrack at the top of his class; and he is outgoing, well liked, and happy.

APPLY NOW!

Our easy application takes less than 10 minutes to complete. Once we approve your application, we will send a confirmation letter including an introduction to your student and a login to Sponsor Central, where you can find important information and connect with other sponsors.
